SUMMARY

A highly motivated & passionate professional with 6+ years of experience. Proven track record of successfully working in the IT industry & implementing various defect-free projects, services, and components, with hands-on experience in data science & analytics, predictive models, python programming, cloud technologies, and project management. Fervently waiting to leverage learned skills and contribute to the industry where it is in high demand.

EDUCATION

University of Maryland

Master of Science, Information Systems, GPA: 3.9

- Graduate Assistant: UM Extension
- SMSA Orientation Committee Member

College Park, MD, USA

August 2022 – December 2023

Jawaharlal Nehru Technological University

Bachelor of Technology, Electronics and Communication Engineering, GPA: 3.53

Hyderabad, India

June 2012 – May 2016

WORK EXPERIENCE

University of Maryland

Web Manager

- Perform web development, data analysis of web traffic, manage website content, and streamline operations to improve efficiency.

College Park, MD, USA

January 2024 – Present

Pixxel Spaxe Technologies

Analytics RnD Intern

- Demonstrated exceptional leadership by implementing in-house code development and project management practices for satellite imagery, achieving 30% increase in team productivity, and 100% client satisfaction.
- Analyzed noise patterns across satellite images and implemented VCA algorithm using Python, improving overall image classification accuracy by 6%.

El Segundo, California

June 2023 – August 2023

Tata Consultancy Services

Analyst

- Remodeled processing of high-risk prepaid cards with Python and SQL, ensuring a 10% decrease in bad debts.
- Optimized package deployment using VBS scripts, resulted in 25% faster execution time saving \$50K annually.

Mumbai, India

July 2021 – July 2022

Tata Consultancy Services

Software Engineer

- Developed three Python modules to efficiently store the gift card fulfillment timing of prepay reservations in database for Amazon Prime users, leading to a 12% increase in cross-platform business transactions.
- Led group of 6, collaborated with e-commerce, mobile teams on MS Teams & Jira, reducing 20% delivery time.
- Performed unit and system testing to prepare test results and created code review checklist documents.

Mumbai, India

June 2016 – June 2021

PROJECT EXPERIENCE

Airbnb (Python, R, Flask, HTML, CSS, JavaScript, Tableau, MongoDB)

- Optimized ML models to predict high booking rates of Airbnb properties, improving AUC from 77% to 90%.
- Created Tableau dashboards for Airbnb pricing, identifying insights: US average price consistently greater than \$100 with majority 58.61% customers renting entire room property type.

Hugging Face (Python, AWS, HDFS, Pig, PySpark, Colab)

- Fine-tuned a BERT model to predict the topic of user posts on Stack Exchange sites with a test accuracy of 96.9%.
- Utilized a transformers model to generate summaries of 10 Daily Mail reviews with 0.81 average BERT 'F1' score.
- Developed virtual assistants for Sentiment Analysis, Text Summarization, and Text Generation applications.

SKILLS

Languages and Databases: Python, C & C++, R, Java, JavaScript, Flask, HTML, CSS, SQL, MS SQL Server, MongoDB.

Data Competencies: Data Science & Analytics, Data Mining, Visualizations, Machine Learning, Deep Learning, LLM.

Big Data Framework: Hadoop, MapReduce, Pig, Hive, Sqoop, Spark.

Tools: AWS, Azure, Google Analytics, Tableau, GitHub, Jira, Docker, Jenkins, Postman, Agile Methodology.

Microsoft Office: Excel, Word, PowerPoint, SharePoint, Power BI, Power Automate, Teams.

Interpersonal: Communication, Presentations, Teamwork, Leadership, Problem-Solving, Critical Thinking.

CERTIFICATIONS

AWS Certified Cloud Practitioner | Recipient of TCS Service and Commitment Award | Diploma in Carnatic Music.
